

## www.HerculesUS.com

If it seems like the Hercules website is so intuitive that you might have designed it, you did! We went to the best authorities for input - our customers! Here's the features that make the Hercules website the leader in the hydraulics industry.

### Real-time Inventory

An industry exclusive to preview inventory, pricing, part substitutions and expected dates.

### Single Page, Instant Reference Checkout

Quick reference with information recap in one page. Links to your address book locations.

### Quick Order

Speeds up and facilitates orders by using the Quick Order feature. No more looking up each part, one by one, over and over. Just key in your existing part numbers and find them instantly.

### Live Chat

Daily instant access to live expert assistance. Also: [helpdesk@herculesus.com](mailto:helpdesk@herculesus.com) or 800-777-5617, X1094

### Excel CSV Large Order Upload

Large orders are quick and easy to place and organize using the Hercules pre-determined CSV format.

### Advanced Search Options

Search by ID, OD, height, even keywords. Search kits by machine make, model and application. Includes OEM and competitor part numbers, dimensions and descriptions.

### M2M Options

We can provide custom EDI and ERP to ERP automated order processing. Ask your Regional Sales Manager for details.

### Add to List

Quick, easy, flexible tool for blanket or inventory re-orders and modifications. Ideal for jobs lists and customer quoting.

### Billing Portal

Displays billing history and current status. Update, sort and print invoices by date ranges. Customer ID and a previous invoice number is needed to access the portal.

### Cross-Platform Accessibility

Compatibility with all ordering platforms for access and control from anywhere.

### Much More!

Browse the industry technical information and products library, overstock offers, news and events. Plus expert consultation and custom seal quotes.
