

SEALS ON DEMAND

Seals On Demand – engineered, machined, delivered.

Hercules® Seals On Demand offers you a wide selection of custom, cost-effective sealing solutions, using advanced rapid-prototype technology. Our programmable CNC production cells can manufacture both hydraulic and pneumatic styles of anything you need – O-Rings, rod seals, piston seals, wipers, back-up rings, rotary seals, swivel seals and static seals. Choose from both imperial and metric sizes for almost any fluid power application, including agriculture, automotive, heavy construction, material handling, manufacturing, mining, logging, fluid handling and refuse.

Hercules® Seals On Demand technology gives you the ability to source custom manufactured products with a short turnaround time and with no mold costs. Hercules® Seals On Demand design software offers over 100 standard profiles and can produce countless custom designs by modifying the standard designs. The advanced lathe technology results in exceptional sealing products with smooth corners and fillets, fine surface finishes and sharp lips. Hercules® Seals On Demand has a large inventory of high quality materials in a wide range of sizes from 3/8" to 24", 14 material choices including materials from elastomers of rubber and urethane to plastics of fluoro-polymers (PTFE) and Acetal (POM). Hundreds of combinations, all in stock and ready for next day delivery!

Provide groove dimensions, seal profile, and seal material.

The following technical information illustrates common housings for each seal profile. Included in each seal application is a chart detailing the recommended dimensions for typical housing sizes. Hercules Sealing Products offers design assistance for non-standard and custom application needs, which may exceed the size ranges in these recommended charts.
